

# Prevent the spread of COVID-19 in 7 STEPS

- 01** Wash your hands frequently
- 02** Avoid touching your eyes, nose and mouth
- 03** Cover your cough using the bend of your elbow or a tissue
- 04** Avoid crowded places and close contact with anyone that has fever or cough
- 05** Stay at home if you feel unwell
- 06** If you have a fever, cough and difficulty breathing, seek medical care early — but call first
- 07** Get information from trusted sources

# STOP THE SPREAD

## WASH YOUR HANDS FREQUENTLY

Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water.

## MAINTAIN PHYSICAL DISTANCING

Maintain at least 6 feet (2 meters) distance between yourself and anyone else -- especially if they are coughing or sneezing.

## AVOID TOUCHING EYES, NOSE AND MOUTH

Hands touch many surfaces and can pick up viruses. Once contaminated, hands can transfer the virus to your eyes, nose or mouth.

## IF YOU HAVE A FEVER, COUGH AND DIFFICULTY BREATHING, SEEK MEDICAL CARE EARLY

Stay home if you feel unwell. If you have a fever, cough and difficulty breathing, seek medical attention and call in advance.

# How to use a mask

Source: World Health Organization

## Before Putting on a Mask:

Clean hands with **alcohol-based hand sanitizer** or **soap and water**.

## While Wearing a Mask:

1. **Cover your mouth and nose.** Make sure there are no gaps between your face and the mask.
2. **Avoid touching the mask.** If you do, clean your hands with alcohol-based hand rub or soap and water.
3. Replace the mask with a new one as soon as it is damp. **Do not re-use single-use masks.**

## Disposing of Masks:

1. Remove the mask from behind using the strings. **Do not touch the front of mask.**
2. Discard the mask **immediately** in a closed bin.
3. **Clean hands** with **alcohol-based hand rub** or **soap and water**.
